To Unveil War Memorial On Remembrance Day

Wilmer Cox, secretary of the Coleman War Memorial Fund, announces that the newly erected Cenotaph in memory of Coleman's war dead in both Great Wars will be officially unveiled on Remembrance Day, Nov. 11. Plans are only being formulated for the official ceremony and details will be published next week.

It is planned to have as many parents of Coleman's war dead as possible at the unveiling. In addition flowers will be sent to the parents and should they be deceased then to the eldest sisters of those heroes "who never came back."

Harry Pawlik Died From Heart Attack Sunday

Collapsed at Bottom of Legion Basement Stairway; Passed Away Early Sunday Morning.

Harry Pawlik, believed to be 66 years, passed away in the local hospital at 6 a.m. Sunday. He collapsed at the bottom of the Canadian Legion basement stairway on Saturday evening from a heart attack. Dr. Lieberman was immediately notified and the patient was taken to the local hospital where he died a few hours later.

Deceased, a single man, came to Coleman early in the century and was one of the first men to be employed by McGillivray Creek Coal & Coke Co. Ltd. He helped timber the first McGillivray Creek entry and helped develop the entry to the coal seams.

He was Ukrainian by birth and belonged to the local Ukrainian Society. He has three sisters in the old country and two brothers in Canada, one of them residing in Calgary.

During the First Great War he was a member of the 192nd Battalion which comprised Crows Nest Pass personnel.

Funeral services were conducted in the Ukrainian hall in east Coleman with nine union secretaries Wm. J. White reading the union burial service. Interment was made in Coleman union cemetery.

HOCKEY CLUB TO RE-ORGANIZE ON SUNDAY
Coleman Grands Intermediate hockey club will re-organize this Sunday afternoon at 3:30 p.m.

The meeting will be held in the Grand Union hotel with President L. S. Richards presiding. A new slate of officers is expected to be elected and discussion take place on team personnel.

Players and fans interested in the welfare of the club are asked to attend this particular meeting.

PRIZE WINNERS
Prize winners at the Pythian Sisters bazaar held last Saturday were Mrs. Amy Penney, three lamps, ticket No. 34; Mrs. Marie Kinney won the coffee table with ticket No. 22. The door prize was won by Mrs. Dave Robert. The bazaar was quite successful.

West Canadian Collieries Seek Service From Calgary Power Company

Calgary—An application of the West Canadian Collieries, Ltd., Blainmore, Alta., for an order directing the Calgary Power Ltd. to extend its power lines to serve coal mines in the Crows Nest Pass will be heard by the Alberta board of public utility commissioners Oct. 21.

The date was set by board chairman G. M. Blacklock today when an adjournment of today's scheduled hearing was requested by the collieries' company. Adjournment was asked on grounds that G. H. Steer of

JUVENILES COLLECT ALMOST \$100 ON TAG DAY

Coleman Juvenile hockey club held a tag day on Saturday and collected almost \$100. The team is in need of uniforms and the tag day was principally to gather sufficient funds to buy the uniforms.

An order has already been placed for the uniforms and there appears to be a few dollars left over to buy a few pucks.

Both Ray Spillers and Doug Honeyman, who are supervising the team, express grateful thanks to the local public for their sterling support.

Mr. Honeyman announces that Chick Roughhead will coach the youngsters this winter.

George Ford Heads Curlers In 1948-49

A. DeLuca Appointed to Position of Secretary-Treasurer; Richards and Wood Retire From Executive.

Coleman Curling Club held its annual meeting on Sunday in the curling arena. Due however to so many curlers being out of town it is estimated that only fifteen curlers were present.

A new slate of officers was elected and George Ford was elected as president for the new season. R. C. Pattinson was elected vice-president and A. DeLuca was re-appointed secretary-treasurer.

The executive remains practically the same as last year with the exception of Messrs. L. S. Richards and Ed. Wood who retired from office after serving several years.

Mrs. G. Cruickshanks Passes At Hillcrest

Hillcrest—Mrs. Jean Armstrong Cruickshanks, wife of George E. Cruickshanks, and a well known resident of the Crows Nest Pass, died at her home here early Monday morning.

Born in La Riviere, Man., she deceased came to Hillcrest in 1908 and had been active in Red Cross and other social work during her residence here.

She is survived by her husband, George, retired merchant and former M.L.A., one son Robert at Olds, Alberta, and a daughter, Mrs. Jean Burgman of Blainmore, Alta.

Funeral services are to be held at Leyden's funeral home in Calgary, Thursday at 3:30 p.m.—Lethbridge Herald.

GEORGE VINCENT LEAVES FOR PICTURE BUTTE

George Vincent is scheduled to start his new position as assistant Master Mechanic at the Picture Butte factory of the Canadian Sugar Factories on Saturday morning. Last week he had travelled to Picture Butte in connection with the position and had gone through the large refining plant.

Mrs. Vincent and family will remain in Coleman until Mr. Vincent secures housing accommodation at Picture Butte.

Mr. Vincent secured his second class papers in steam this summer and as a result is well qualified to take over more important and responsible positions than heretofore.

Edmonton, counsel for the East Kootenay Power Co. of British Columbia, was unable to be present.

The company now obtains its electric power from the East Kootenay Power Co., but desires to be served by Calgary Power Ltd., so that a sufficient and guaranteed supply of power would be available.

The application follows informal discussions held here last month between representatives of the two power companies and the collieries.

Many Take Part In Vain Search For E. DelPuppo

Approximately Fifty Coleman Men Took Part In Search; Two Brothers From Trail and Vancouver Here.

Fifty Coleman men augmented by R.C.M.P. from Cardston and army personnel from Lethbridge in addition to residents at Hillspring and Cardston worked from early morning until dark on Sunday in a vain search to uncover the body of Ernest DelPuppo who is presumed to have been drowned in Strawberry Lake, eighteen miles from Cardston on Monday, Oct. 11.

Taking part in the search are deceased two brothers, Victor of Vancouver, and Santo of Trail. Upon their arrival in the Pass they were the guests of Mr. and Mrs. Bert McEwen. They are now staying at the police barracks at Cardston in order to be closer to the lake on which they are working daily.

Mc Gillivray Creek Coal Co. officials aided transporting a number of local men to the lake by loaning a company bus in addition to donating supplies.

The large number of men worked in relays in searching the lake by boat, wading into the water, prodding with long poles and even blasting.

The lake is quite large and is choked with vegetation. It is stated that frost and the boats plowing through them had cut the weeds down by approximately eighteen inches during the past two weeks.

Should favorable weather continue it is understood that another large gang of men will leave Coleman next Sunday to renew the search.

To Establish Crows Nest Forest Reserve Headquarters At Blainmore

Calgary—About five miles of the 200-mile trunk highway being built from Waterton Lakes to Kananaskis by the eastern Rocky Mountains forest conservation board has been completed, board officials said today.

They said bad weather and late delivery of heavy road building machinery delayed the work. A secondary road of rough gravel running from Jumping Pond to the Kananaskis forest

reserve is nearing completion and about 65 miles of road has been surveyed while reconnaissance surveys have been made over another 150 miles.

The board also announced that tests had been carried out on a proposed network of radio stations at forest ranger bases. Plans also are underway for construction of a building at Blainmore, Alta., to serve as headquarters for the Crows Nest forest reserve.

Mrs. Marion Stanfield Died At Vancouver; Funeral Here Saturday

Sister of Mr. Ernest Hill; Funeral To Be Held In Coleman Upon Arrival of Body.

The death occurred at an early hour on Sunday of Mrs. Marion Stanfield, 45, and sister of Mr. Ernest Hill, at Vancouver. The body is being brought to Coleman and interment will be made in Coleman union cemetery. It is probable that services will be held in St. Alban's church.

Deceased became ill last May and was a patient in a city hospital. Her condition was so critical that Mr. and Mrs. Hill travelled to Vancouver to be with her. In August Mrs. Hill was called to Vancouver a second time due to deceased's condition.

Tuesday afternoon Mr. Hill was uncertain just what his sister's body would reach Coleman and stated that funeral services would be held upon the day of its arrival.

Surviving are one daughter and two sons, all of Vancouver, and Mr. Hill. The family members are coming to Coleman for the funeral.

SPORTS ASSOCIATION NOTES

Sports' Association members are asked to keep open the date of Sunday, Oct. 24, at the hour of 7 p.m. and attend the meeting of the Sports Association. This is the semi-annual meeting and a new slate of officers is scheduled to be elected.

Businessmen and clerks are asked to have their membership fee ready for canvassers next Saturday.

People shop where they are invited—that's why it pays to advertise.

POPPY DAY OCTOBER 30

Coleman branch of the Canadian Legion will sponsor its Poppy Day on Saturday, Oct. 30. This particular day is poppy day and it has been the practice during the past several years to sell poppies on the day day closest to Remembrance Day.

In Northwest Stampede

MISS HELEN SUPWOT daughter of Mr. and Mrs. K. Supwot, of East Coleman, who is seen in the film "Northwest Stampede," which plays the Roky on Tuesday and Wednesday of next week.

Miss Supwot was a member of the McGillivray Creek Office staff last year and while on vacation went to Calgary where this particular film was being made following the conclusion of the Calgary Stampede. She was engaged as an extra and according to Roky theatre manager Ed. Somshor Miss Supwot is clearly shown in at least three spots in the picture. Her Coleman friends will no doubt attend the picture in an effort to see just how she conducted herself in her first film "assignment."

Police report revealed that school authorities are taking a serious view of students from the primary grades up to high school attending mid-night previews with the result that they are barely able to remain awake on a Monday morning much less take an active interest in their school subjects.

Council will co-operate to the extent of strictly enforcing the 9:30 p.m. curfew and when next a mid-night preview is staged the police will be in front of the theatre to send home youngsters, fourteen and under, who are unaccompanied by parent or guardian.

Do You Possess a Band Instrument?
During the life of Coleman brass band members were permitted to keep their instruments at home.

A brass band is being organized in the Pass and it would be appreciated if those possessing instruments which are the property of Coleman Brass Band would turn in their instruments to the town office as quickly as possible.

Florence Cameron Municipal Hospital Matron
At a Board meeting last night Miss Florence Cameron R.N., of Pincher Creek, was appointed nursing superintendent of C.N.P. Municipal hospital. Her duties will commence Nov. 1.

CARD OF THANKS
I wish to express my sincere thanks to the many friends who gave me a surprise party on the occasion of my birthday and who contributed to buy such beautiful and valuable gifts.

Mrs. Mike Kratky

Police To Crack Down On Trucks Blocking Main Street Traffic; Students And Mid-Night Previews Cause Problem

Lengthy Report Received On Town's Proposed Sewerage System; Ashmen to Receive New Wage Rate Of \$1 Per Hour

Regular meeting of the council was held on Tuesday evening. Present Mayor F. Aboussafy, Councillors Dutil, Jenkins, Ramsay, Wilson and Wood.

Councillors Ramsay and Wood were appointed as council's representatives on the Sports' Assoc. executive.

Town's drinking water remains pure according to the latest analysis.

A request was received from C. N. P. Municipal Hospital Board asking council to agree to permit its fire brigade to answer a call to the Municipal hospital should the need every arise. The Board stated it would absorb all expenses incurred. Council agreed to co-operate with the Board should a fire ever break out in the hospital.

The M.H.O.'s report was received. It revealed that during September there were 6 cases of Chickenpox, 2 cases Whooping Cough, 1 of vener. disease and 1 of polio in town. He reported on the lady who this month culminated her attacks on a family by smashing a window. Her future behaviour is to be carefully watched and herself a public nuisance steps will be taken to bring her under control.

OUR COMPLETE SHORT STORY—

"GOODNIGHT SWEETHEART"Reminiscing 'Scenes
Of An Almost For-
gotten Past

By JOHNNY ROWLEY

CHARLEY FERRIS had always said "Goodnight sweetheart" to his wife the last thing before going to bed when they were first married. He had continued the practice when he was thirty, and when he was forty, and now that he was seventy-three he saw no reason for giving it up.

"Goodnight sweetheart," he murmured, standing in the dusk of the upstairs room in his daughter's home.

He didn't get into bed immediately but went and stood by the window overlooking the garden. It was hot with the heat of late summer after a scorching day and was only now, at ten o'clock, beginning to cool off. He stood there, absently, drinking in the warm glow of the moon, scarcely thinking, when he caught the murmur of voices from the clump of evergreens around the small summer house.

He didn't mean to eavesdrop but the voices wafted up to him on the cool evening breeze were clear and distinct. He knew at once who was there and frowned.

His granddaughter Dorothy... Dot, as she was to the family... was almost the image of his wife when they were first married. For that reason he had always thought more of her than his other grandchildren. Only today he had heard that she and Dick Albright were on the verge of breaking up. The news had bothered him for he thought a lot of them both and had been looking forward to the day when they would be married. He had continued to worry about it all day.

His hostess offer of help had been met with refusal. "It's nothing," Dot had told him. "I'll just have to work out of its own accord."

He had had to be content with that but it had continued to worry him. The voices were lower now and he could only catch a word now and then.

He heard Dick say earnestly: "But Dot, if we're to make this thing work out we've got to trust each other." Dot's reply was lost in the night air but the old man had scarcely listened for it.

His mind had gone back almost fifty years. "Did you hear that, Nancy?" he asked. "He says they've got to trust each other." He chuckled. "Remember that time I had to go to Chicago and was a day late in getting back? That was bad enough, but when you found the gloves

in my valise, the ones I'd forgotten to give you, you thought I was lost for sure. It was a long time before you would trust me completely." He soaped suddenly, coming back to the present. "They're going through the same thing, Nancy," he said.

They were talking again, earnestly, and had got up and stood now just in front of the summer house where the warm glow of the moon glistened softly on the girl's hair.

She was slim and tall and her hair, tumbling in soft curls was a raven black. "You know I love you," he heard her say. "I guess I always will..."

He didn't hear any more for his eyes had filled and he was thinking of another garden in the moonlight and of another girl. "She's the spitten image of you when you were twenty, Nancy," he said. "Do you remember the night I asked you to marry me..."

"It was a night like this," he continued faintly. He meditated on the scene, his eyes half closed. "It's almost as if that were yesterday," he murmured.

As he watched the boy stepped forward and attempted to take her in his arms. For a moment she protested, but only for a moment, and with a muttered exclamation pressed her face to his.

Again the scene faded for the old man and he was seeing another scene, a scene out of his own past. "Remember that night at Haloran's beach, Nancy?" he whispered. "The night was as cool as this one, and the moon shining on the waves made them look all silvery. I took you in my arms..." He started out of the window, his eyes unseeing, looking back into an almost forgotten past.

LILAC BLOOMING SECOND TIME

BRANDON, Man. Verna H. Kelly of Brandon, stamped horticultural experts here. He informed them he had a lilac bush in his garden which was blooming for the second time this year. The experts said they had never heard of such a thing before.

LOOT WAS SMALL

EDMONTON.—Thieves who broke into two Edmonton service stations, in a single night stuffed their pockets full of loot, but got little financial return. Their bag was \$4.50 all in pennies.

CREATE SUPERMEN?

JOHANNESBURG, South Africa. H. C. Bernard, 27-year-old chemist, of Germiston, thinks human beings can be transformed into supermen. He has developed an apparatus intended to stimulate the brain with electric rays. 2799.

He shook his head to get rid of the image and looked again into the garden. Dick had hold of both her hands and was talking earnestly. She was looking up into his eyes and the dim light of the moon he thought he could see a smile on her face.

They stood like that talking for several minutes and then he could see that Dick was about to leave. The fear he had forgotten in his own reminiscing returned with a cold, deadening impact. It seemed that everything must be right, but he couldn't be sure. He strained to catch what they were saying but their tones were lower now.

Then Dick kissed her again. Quickly, the old man thought. He turned to go and paused when he reached the path which led around to the front of the house. He turned for an instant and for that brief moment the old man could see his face clearly in the moonlight. "Goodnight, sweetheart," he called softly. The moon made silvery ripples on the girl's hair.

Charley Ferris straightened up, a smile on his lips. The fear he had felt all along was gone and in its place an exultation he had felt only once before—the night he had proposed to his wife.

"Did you hear that, Nancy?" he demanded. "Everything's all right. The moon is all patched up." He turned from the window, leaving Dot standing quietly in the moonlight and went to his narrow bed. He paused for an instant before he got in... long enough to switch on the light and look at the picture of a dark-haired laughing girl in a high-collared, long-sleeved dress which stood on his bureau.

"Goodnight, sweetheart," he whispered and then turned off the light and sank back against the pillow with a contented sigh. "Goodnight, sweetheart," he murmured once again before his eyes fell shut.

B.C. Needs More Prospectors

VANCOUVER.—British Columbia needs prospectors. The minerals are here—they need only to be uncovered, declares Frank E. Woodside, manager of the B.C. and Yukon Chamber of Mines, in announcing the Chamber's annual night school prospecting course.

Mr. Woodside predicts a tremendous boom in mining activity in coming years. Many who have taken the mining course in its past 30 years have made important discoveries, he says.

Subjects studied include mineralogy, geology, prospecting, staking claims, and methods of analysis, test-coring and development to make a prospect saleable to mining companies.

VALUE OF FRUIT CROP HIGHER AT PENTICTON

PENTICTON, B.C.—On the basis of grades, value of this year's fruit crop in the Penticton district is up a pair with other years.

The crop is less than estimated in the original survey, due to small size of fruits. However, grade for grade, the overall price is better than last year.

The American market is especially good this year for selected grades.

Pasteurized Milk Is Safe.

Horses Sell Highest In Years

Ant-Loney Laurie Drackett shown calling for bids at the horse sale in Moose Jaw, Sask., which each year precedes the feeder show and sale of feeder steers at the Southern Saskatchewan Co-operative stockyards.

Redwater Well Big Producer

EDMONTON.—Imperial Oil Redwater No. 1, discovery well 30 miles northeast of Edmonton and 50 miles northeast of Leduc, has demonstrated an open flow potential of over 1,700 bbls. a day, may prove even larger when further acidization is complete.

Initial testing before acidization of the 3,264-ft. well with its 140 ft. of oil-bearing Devonian formation returned only 262 bbls. of oil in a 12-hour period. After acid treatment with 500 gallons of acid, however, the well returned an average of 72 bbls. of oil an hour on a six-hour open flow test. This represented a daily oil production rate of 1,728 bbls. Further treatment by acidization is being carried on with good hopes that open flow potential may prove still higher.

Little gas has accompanied the oil production. Significance of this is now being studied by officials. Apparently there is considerable pressure present for the well to produce the way it has. This could come from either a gas or water drive. A second test well is to be completed five miles north of Redwater No. 1. The oil runs about 35 deg. API.

CHICK HATCHING BUSINESS DECLINES

CALGARY.—A sharp decline took place in the chick hatchery business in Western Canada this year, delegates said in reports presented at the 11th annual meeting of the western section, Canadian Federation of Hatchery Associations.

Speakers blamed the late, wet spring and "greatly increased" feed costs for the decline.

Sharpest drop was reported by British Columbia. W. V. Harford of Kitimat, said hatcheries in the West Coast province had only 60 per cent. of a normal year's business.

SELECTED RECIPES**CHOCOLATE FLUFF**

Add ½ cup confectioner's sugar to 2 stiffly beaten egg whites. Beat until they stand in peaks. Slowly add one 1-ounce square unweetened chocolate, melted, ½ teaspoon vanilla and ½ teaspoon salt, and chill well.

BREAD PUDDING

2 cups dry bread crumbs
4 cups scalded milk
1 tablespoon butter
1 teaspoon salt
¾ cup sugar
4 slightly beaten eggs

Soak bread in milk for 5 minutes. Add butter, salt and sugar. Pour slowly over eggs, add vanilla and mix well.

Pour into greased baking dish. Bake in pan of hot water in moderate oven (350 deg. F.) until firm, about 50 minutes.

Serve warm with plain sauce, or plain cream. ¼ cup raisins may be added if desired. Note: You may use ½ cup sugar and ½ cup syrup.

Western Briefs

WINNIPEG.—Beer parlors in Winnipeg won't be permitted to use cigarette-vending machines. Civic health committee refused to change the licensing by-law to permit the operation of the machines in local pubs or anywhere else in the city.

BEAUSÉJOUR, Man.—Beauséjour's Memorial rink and arena is on its way to completion. Speeding construction of this fine project is a committee who have sent forth an appeal for voluntary workers who are promoting organizations to stage entertainments in the rink in order to raise funds and speed its completion.

SANDY LAKE, Man.—Believed to be the largest squash ever grown in this district, J. Mischanek, who farms three miles east of Sandy Lake, is proudly exhibiting a monster that weighs 63 pounds. It is 53 inches in circumference and 67 inches in longitudinal circumference. Mr. Mischanek says the squash received no special treatment, but just seemed to grow at an amazing rate during August and September.

CALGARY.—The historic "44" ranch in the Claiborne-Nanton districts of southern Alberta has been sold to an Argentine cattleman, official of P. Burns Ranches Limited, announced. About 25,000 acres of dead land were purchased by Dr. J. M. Cullen of Buenos Aires. No livestock was included in the deal. The sale is believed to be one of the largest ranch land transactions made in Alberta in recent years.

SASKATOON.—Saskatchewan's college of physicians and surgeons went on record as favoring state-aided, contributory health insurance on a "reasonable fee-for-service-rendered basis."

INVERMERE, B.C.—William Dickson, Fernie, was re-elected president of East Kootenay Farmers Institutes and A. B. Smith of Cranbrook was returned as secretary at the annual meeting held here.

KELOWNA, B.C.—Mayor W. B. Hughes-Games said he would recommend to the 1949 city council that traffic lights be installed on Kelowna's main street, in view of the heavy traffic.

How To Get Quick Relief From Sore, Painful Piles

I can help most pile sufferers. I believe I can help you too if you want relief from the itching soreness and burning pain of piles.

My Hem-Road treatment is different. Hem-Road is an internal medicine — a small tablet taken with a glass of water. It corrects the condition INSIDE you, totally that cause you such intense pile soreness and pain.

You'll be honest with you Hem-Road seems to help most pile sufferers more than others so I want to point out those who are not satisfied. I refuse to ask people to pay for something that does

Some good saddle horses were sold at the Moose Jaw auction. Cowboys with ten-gallon hats and high-heeled boots were much in evidence, and, above, horses were in good shape and brought high prices at the Moose Jaw horse sale. Here a few of them turn in the sales ring.

The battle of Chateauquay took place in October, 1813, during the War of 1812. The United States troops were defeated.

Relieve Misery of Stuffy HEAD AND CHEST COLDS

Before bed, massage Thermogene Medicated Rub into throat, chest and back. Immediately pleasant, soothing medicinal vapour helps clear congestion of the upper bronchial tubes... a quiet coughing... soothe irritation. Thermogene Rub penetrates the skin to ease sore chest and aching muscles. Acts while you sleep! Inhale Thermogene steam-vapour for fast relief. Economical—buy today!

Not help them as much as they expect it to. If Hem-Road helps you, surely it is worth the small cost. Otherwise I'll take your word. I find people are honest about such things.

All I ask is you use Hem-Road as directed for 10 days. Then if you are not satisfied return what you did not use and get your money back. This is an unusual offer but Hem-Road is an unusual medicine. It has been sold on a refund promise for over 40 years. I am not asked to make money refunds so it is only the most folks who use it. At all drug stores.

ARRIVES HOME AFTER PLANE CRASH RESCUE—Arriving home in Ottawa, Ont., a hero from the U.S. plane wreckage in Saskatchewan, C.F.O. Jack Kastner is greeted by his wife and their six-month-old son, Michael. Kastner was one of five military men who were rescued by the R.C.A.F. after their plane crashed in the wilds of northern Saskatchewan.—S.N.S. photo.

LACK OF SUMMER RAIN DRIES UP FALLS—Lack of summer rain has caused the 274-foot Montmorency Falls in Quebec to dry up. Most of the water from river which feeds falls is diverted for Quebec City power. Bone-dry is face of the falls and only a pool of water remains at its foot. Drying-up has not affected the power supply and there is no shortage of electricity in the area.—S.N.S. photo.

TRAINING FOR EMERGENCY—A former flying officer in the R.C.A.F., Gordon Jarrett of Toronto, recently returned from a two-day transatlantic flight. It was a training flight, Mr. Jarrett said, part of the R.C.A.F.'s current program of organizing a substantial nucleus of trained personnel for flying and training in any emergency. Above is a North Star plane.—S.N.S. photo.

"GHOST" RUNS WILD AT HOME OF ORRIN SPEARMAN—Strange events at the Goulburn, Ont., farm home of Orrin Spearman will not make him admit there are "ghosts," but Mrs. E. Seabrook said she saw one. She stands by fence that the "ghost" jumped over. It is a "fantastic story" say police, but Orrin Spearman stands guard with a gun and his dog, Lassie. The "phantom" is reported to have been eating jam, raw potatoes, tying knots in window curtains, rapping on doors and rocking in the parlor chair in the farmhouse near Slittsville, Ont. The "ghost" is described as being tall, heavy, wearing a cap and striped pants.—S.N.S. photo.

FOUR DIE IN MID-AIR CRASH—Four persons died near Cartierville airport, north of Montreal, when two light planes coming in for landing on the same runway crashed in mid-air. Wrecked aircraft, shown here, was piloted by Robert Carlson, R.C.M.P. constable, who died in hospital. Rene Lanthier, pilot of other plane; Yolande Lemire and Gilles Audett, his passenger, also died.—S.N.S. photo.

THE CAMPAIGNING DEWEYS—Governor Thomas E. Dewey of New York and Mrs. Dewey are shown as they arrived recently at Los Angeles, Calif. The smiling candidate for the presidency and his equally cheerful wife were accorded a roaring ovation by a huge crowd. (S.N.S. photo)

HAS PRINCESS MARGARET A RIVAL?—Gossips in London, Eng., are wondering if blonde Sharmar Douglas, (right), daughter of the U.S. ambassador, Lewis Douglas, is "poaching" on the romantic interests of Princess Margaret Rose. The gossip started when Miss Douglas was seen at a movie with the Marquis of Blandford, (left), whose name has been romantically linked with Princess Margaret.—S.N.S. photos.

QUEEN OF FRESHIES—Phyllis Watt, 19, of Port Arthur, Ont., named Freshie Queen at University of Manitoba at the annual student frolic. Phyllis plans a career in textiles.—S.N.S. photo.

CORNWALL HAS ONLY LACROSSE STICK PLANT IN WORLD—Reputed comeback of lacrosse among the small fry across Canada keeps a factory on Cornwall Island busy, only lacrosse stick plant in world. Yvette Seymour, 14, shows Mrs. Anna Peters how sticks are strung. Employees are mostly former lacrosse stars.—S.N.S. photo.

SAILING PARTY RESCUED AFTER TWO DAYS ADRIFT IN LAKE—Guests on week-end cruise of motorboat lost on Lake St. Clair for two and a half days, Mrs. Florence Martin and Josh Meredith of Ridgetown, Ont., examine model of cruiser Siesta. A piece of blanket tied to pole on boat was seen by aircraft aiding in search. Mr. and Mrs. Albert Bidell, owners of motorboat, which developed engine trouble, are shown with pet fox terrier.—S.N.S. photo.

Mr. Mike D'Andrea was admitted to the local hospital as a patient on Monday.

Mr. and Mrs. Mack Stigler had as their guests recently the former's brother and his wife from Indiana for two weeks.

EVERYBODY'S BUSINESS

"You've Gotta Accentuate the Positive" says the popular song of yesteryear. And it's true!

The men and women who have accomplished big things in science, art, business, education, political and military affairs have all been positive thinkers. They had to be! Otherwise risks, mistakes, obstacles and laziness would have stopped them.

A barber once told me he wanted to open his own shop. But he never got around to it. Fear of failure held him back.

Negative thinking is likewise typical of all the people who are habitual fault-finders, indecisive, lazy, defeatist and over-cautious. They act as brakes against the world's progress.

Yes, we need more folks who accentuate the positive. And they themselves are happier, more successful in their work and enjoy better relationships with others!

An important positive force for national progress is the millions of dollars invested by life insurance companies, on behalf of policyholders, in public works and industries which promote higher standards of living for all.

Supreme Protector Visited Pythian Sisters

Grand Chief Also Paid Official Visit; Sister Sarah Ford Presented With Her 25th Year Jewel.

Progressive Temple No. 3 Pythian Sisters, was honored by the official visit of Supreme Protector Nellie Douglas and Grand Chief Dora Bramham who were given supreme and grand honors. Grand honors were also given Grand Junior Amy Penney.

The addresses given by Supreme Protector and Grand Chief were most instructive and enjoyed by all Sisters present.

Most Excellent Chief Mary Clarke, on behalf of the temple, presented corsages and gifts to the honored guests who expressed their thanks. Also receiving corsages were Grand Junior Amy Penney, Past Chief Kostelnik, Most Excellent Chief Mary Clarke.

Sister Sarah Ford was presented with her 25 years' jewel by Sister Penney in appreciation of her faithful service to the Temple. In expressing her thanks Sister Ford stated this was her 25th year as a member of the Temple and expressed the hope that many more Sisters would enjoy the same honor as that given her.

Following the closing of the Temple a lovely lunch was served by the social committee. The tables being decorated with the colors of the Order and cut flowers. (E.W.)

School Board Notes

A regular meeting of the school board was held on Sunday morning. Present Chairman George Evans, Trustees Bomben Cornett and Holly.

The resignation of Mrs. Alma Roughhead as a substitute teacher was received and accepted. The request of Mrs. Hartley Dunlop to be placed on the list of substitute teachers was accepted.

A \$20 cheque was received from Edmonton to cover polling booths in the schools during the recent election. The money will be divided between the janitors.

Film kept in the school will be insured to the value of \$50 and a policy has been purchased to that amount.

Supplies required by both principal Hoyle and the janitors were ordered purchased.

The provincial school Trust-

tees convention will be held in Edmonton on Nov. 10 to 12. A meeting is to be held this Saturday morning to determine who will attend. A \$175 appropriation for delegates' expenses has been set aside.

Crowds Thronged Into Theatre Sunday

Coleman Board of Trade Nick Nicholas was taken completely by surprise on Sunday evening when it appeared as if half the populace of the town of Coleman wanted to crowd their way into the Roxy Theatre to witness the Coleman Board of Trade's true-color movie of the Coleman Rodeo.

Nick had made no provision for help at the door and was literally hanging on the ropes when Cecil Coover came along to give a helping hand.

The theatre seats approximately 425 and so many had crowded into the building when the doors opened that some were asked to leave the theatre and come back for the second show which it was found necessary to run. Two full houses watched the film.

The Rodeo film particularly was well received and the Board of Trade is very pleased with public response.

The Board is indebted to Sgt. Murray who travelled from Blairmore with the projector and some film from the C.N.P. Film Library.

Sappers Mark Up Record Installing The New Donjek Steel Span

The Alaska Highway was closed for twenty-three hours last week from Friday to Saturday noon when twenty sappers of the Royal Canadian Engineers installed a new steel span, replacing trestle Number Seven of the Donjek River series of bridges.

Tourists and others felt this to be somewhat of a record, and were grateful for the six a.m. to dark shift put in by the crew in order to allow travellers to make use of the holiday weekend to complete journeys north and south.

Although R.C.M.P. on the Canadian side, and Customs officials at the Alaska border were advised to warn motorists of the tie-up, a dozen or more cars were lined up on each side of the river at noon Saturday waiting for the completion of the temporary work, and waved grateful handshakes to the Sap-

pers as they passed. The work is under the supervision of Lieut. Ian Smith, R.C.E. Scrap steel left by the Americans was utilized in the construction of the new span, which was first put together and tested with a sixty ton load, before being removed to its present site.

Driftwood carried down the Donjek's main stream was responsible for weakening the original wooden structure necessitating the inserting the new 60 foot span.

Acknowledgement

October 10, 1948

Dear Sir:

Please forgive me for not acknowledging receipt of your parcel sooner.

I received the Plaque and Wallet some time ago, and really appreciated the efforts of yourself, your committee and the people of Coleman in providing such useful and appropriate presents for her Service Men and Women.

Again thanking all who assisted in this great effort for their generosity and thoughtfulness.

The presents I have received will always be a reminder of the many friends I have in Coleman and the pleasant times spent there.

George F. Sims

Coleman Journal,

Sir: This is to let you know how much we appreciate all the co-operation extended to the Alberta Tuberculosis Association and the Department of Health by the Coleman Journal and by the people of Coleman and district in the Survey conducted there recently by the Christmas Seal Mobile Chest X-ray Unit.

Mr. E. R. Baxter, director of the Survey, has told me of the many courtesies he experienced, and of the considerable amount of work cheerfully done by many of your citizens. It would be impossible to name all of them, but I might mention Mr. H. Allen.

I would ask you to convey our sincere thanks to them and to all their associates for a very fine job.

C. Robert Dickey
General Secretary.

Last Call To Enroll In First Aid Classes

Last Sunday was the start of Coleman's FIRST AID CLASSES.

IT IS STILL NOT TOO LATE to enroll in these classes which will be in progress all through the winter months. Make sure you attend the classes next Sunday at 1 p.m. in the High School Auditorium.

ALL YOUNG MEN should train in First Aid. The training gives one the ability of aiding the wounded in emergency. In mining particularly First Aid training is a valuable asset to every man.

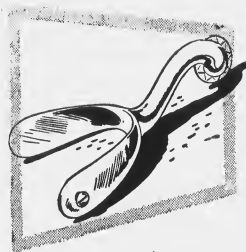

HEED THE KNOCK OF OPPORTUNITY ENROLL THIS SUNDAY!

Mr. And Mrs. Jankulak Leave For Kelowna

First Came to Coleman in 1909; Had Worked at Local and District Mines; Has Purchased Fruit Orchard.

Coleman has lost still another of its old-time couples, this time in the persons of Mr. and Mrs. John Jankulak who left Tuesday with sons John Jr. and Frankie for Kelowna where they have purchased a ten acres fruit orchard.

Mr. Jankulak first came to Coleman in 1909 and entered the employ of International Coal & Coke Co. Ltd. A few years later he took up residence with his family at Hillcrest where he worked at the Hillcrest mine prior to the 1914 explosion. He later worked at Bellevue and Passburg before returning to Coleman in 1919 when he entered the employ of McGillivray Creek.

He remained with McGillivray up until two years ago when

sickness forced his retirement. Last summer he and Mrs. Jankulak travelled to the west coast for a vacation and took the opportunity of travelling in to the interior where they visited Mr. Joe Simla, of Kelowna and formerly of Coleman. They inspected a few orchards and entered into an agreement to buy a ten acre fruit orchard which was for sale. The tenant only left the orchard this week and Mr. and Mrs. Jankulak and two sons lost no time in gaining occupancy of their new property.

Miss Irene, employee of the Red & White store, plans on remaining in Coleman until next Spring when she will join her parents. Another daughter, Miss Frances, an employee of the Imperial Bank of Canada, Cranbrook, also plans on joining her parents next spring.

A son, Lawrence, was killed in action overseas.

PARTIES

Prior to their departure Mr. and Mrs. Jankulak were guests-of-honor at two parties. On Sat-

urday, Oct. 2, friends gathered at the home of Mr. and Mrs. Mike Kubin on Main Street. Here hostesses Mrs. Kubin, Mrs. Katie Smolek, Mrs. Katie Leskovsky of Hillcrest, and Mrs. Mary Kleskon, of Bellevue, entertained at a most enjoyable social evening. Mrs. Jankulak was presented with a set of dishes while Mr. Jankulak received a handsome wallet.

The following Saturday the Ladies Society, K.S.P.S. No. 11 entertained Mrs. Jankulak and presented her with a beautiful chenille bedspread.

Not to be outdone by his parents Frankie was honored by a number of his school pals who sponsored a social evening and presented him with a handsome camera.

CARD OF THANKS

Mrs. Jankulak and myself wish to express our grateful appreciation to all those friends who sponsored parties in our behalf and who extended to us their best wishes for health and happiness in our new home. John Jankulak.

First Aid Hints for

DISLOCATIONS AND BRUISES

DISLOCATIONS:

A dislocation is the displacement of one or more of the bones of a joint. The joints most frequently dislocated are those of the shoulder, elbow, thumb, fingers and lower jaw.

SIGNS AND SYMPTOMS:

1. Pain of a severe sickening character at or near the joint.
2. Loss of power in the joint.
3. Fixity of the joint. The limb cannot be moved at the joint either by the patient or by the First-Aider.
4. Deformity of the limb. The limb assumes an unnatural position, and is misshapen at the joint.
5. Swelling about the joint.

TREATMENT:

MAKE NO ATTEMPT TO REDUCE A DISLOCATION.

1. Steady and support the limb in the position which gives most ease to the patient, using padding where necessary in order to lessen the effects of jolting during transport.
2. Rest the patient on a couch or bed in the position which gives most ease.
3. If the pain is severe, expose the injured part and apply a cold compress.
4. When cold ceases to give comfort, apply a hot compress.

BRUISES:

A blow anywhere on the surface of the body may cause extensive capillary haemorrhage beneath the skin, without breaking it — a "black eye" is an instance. The injury is accompanied by discoloration and swelling.

TREATMENT:

Apply pieces of lint soaked in equal parts of spirit and water, or a cold compress.

HYDRAULIC RAMS DO THE WORK

HYDRAULIC RAMS are an excellent method of getting a good water supply for those who have water in such a location that they can use one.

We are publishing herewith drawings of three ways of installing a hydraulic ram. The important thing in the installation of a ram is to have the drive pipe of the correct length for the vertical lift in question. In the upper drawing of the three installations pictured, the slope between the spring and the ram is sufficiently short that the drive pipe can be connected directly to the water supply. In the second and third pictures it is necessary to install a stand pipe or a supply box between the ram and the spring in order to secure the correct length of drive pipe for the installation in question.

These are definite rules in connection with the length of the drive pipe of a hydraulic ram which must be followed if the installation is to be a success. The drive-pipe of a ram must be not less than 8 to 10 times the vertical height between the level of the water in the supply and the level at which the drive-pipe enters the ram. This height may also be described as the working head or fall of the drive-pipe. The minimum head or fall under which a ram will work satisfactorily is about 2½ feet; more head than this, however, is better.

Where the vertical height to which the water from the ram has to be delivered is more than 8 to 10 times the working head of the ram, the drive-pipe should be made equal to the height of the vertical lift in the delivery. These are the rules governing the length of the drive-pipe of a ram.

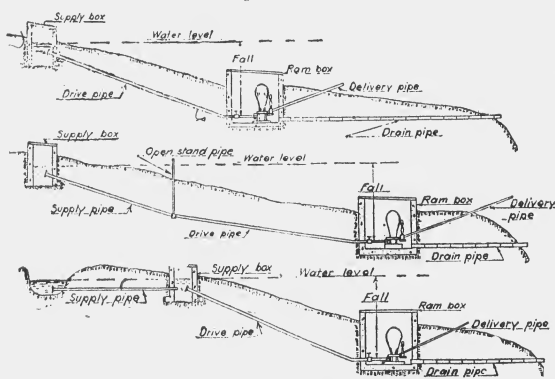

It is possible to take water from a river at a point upstream and conduct it through a pipe along the bank to a point where sufficient fall will be secured to operate a ram. Often, however, such a pipe will be much longer than the permissible length of the drive-pipe. In such cases a stand-pipe is installed in the pipe-line, and the length of the drive-pipe, measured from the stand-pipe to the ram. This is illustrated in the centre diagram of the accompanying drawing. It would, of course, be necessary to protect the delivery pipe along the bank by burying it in the ground, but this is usually possible.

It is important that you secure the right size of ram for your installation. The companies selling hydraulic rams will send you on request a circular giving the sizes of the rams they make, the size of the drive pipe needed, the number of gallons per minute required to operate each size and the number of gallons the ram will deliver on different heights of vertical lift. It is obvious, of course, that the higher the vertical lift the

less water can be delivered per minute. It is always advisable to install a ram small enough to operate when the water level is at its lowest point during the year. This is necessary in order to have a surplus of water at all times.

Hydraulic rams should be installed in a pit deep enough to protect them from frost and there must be a waste drain from the pit to a ditch or other low ground into which the water will always have an outlet. Sometimes a small building is put up over the pit, which, of course, makes the ram accessible at all times, particularly in winter.

When properly installed and in places suited for its use the hydraulic ram is a cheap and very dependable method of pumping water. It is used to pump water into elevated tanks from which the water is piped to faucets in house and barn as in any gravity operated water system, or it can be used to pump against an air pressure tank, though in this permit water to escape when the tank is full. The most convenient installation for hydraulic rams is always the gravity tank system. It is necessary, of course, to have an overflow pipe running from near the top of the storage tank to some dependable waste drain which will carry waste water to some place where it will not be a nuisance.

These diagrams show three methods of arranging hydraulic rams under different conditions. Where the distance from the source of water to the location of the ram is greater than the required length of the drive pipe, a supply box or stand pipe must be provided.

GERMAN SCHOOL CHILDREN TO STUDY IN BRITAIN

Last week a party of 18 girls and 23 boys left the British Zone of Germany for a six months visit to Britain. These German children, who are all between 16 and 18, will spend the autumn term, Christmas holidays and spring term as the guests and pupils of various State and public schools in Britain. The scheme is sponsored by the Education Branch of the British Control Commission in Germany and is carried out with the co-operation of Britain's Educational Interchange Council. Seventy German secondary school children have already been brought over this year to study in Britain for periods of up to six months.

Defines Six Stages Of Drunkenness

TORONTO. — Alcohol is a "brain poison", not a stimulant, Dr. C. W. Muehlberger, Lansing, Mich., toxicologist, said.

In an address to legal, medical and police experts he outlined six stages of drunkenness: Dry and decent, delighted and devilish, dizzy and dejected, dazed and dejected, dejected and dejected, dejected and dejected.

He spoke in a series sponsored by the Accident Prevention Association of Ontario.

He said carbon monoxide poisoning, diabetes and some nervous diseases sometimes produced the same symptoms as drunkenness.

Yellow is the strongest color in terms of luminosity.

KITCHEN MEDITATIONS

Hallowe'en!

By JANE DALE

Owls in the tretoops; cats upon the wall.
Don't you know it's Hallowe'en?
Aren't you scared at all?
Witches on their broomsticks, riding through the sky.
Aren't you scared at Hallowe'en?
When ghosts go floating by?
Mother says the witches, ghosts and everything
Are a lot of fairy tales.
That Hallowe'en does bring.
Apples in a long row; games and lots of fun.
Jack-o-lanterns grinning.
When the lights are gone.
Are so nice, not scary, and I love them all.
But I like owls and witches
And black cats on the wall!
Though they make me scary; make me shiver with fright,
I would hate to miss them
On this Hallowe'en night!

GROWS MONSTER RADISH

EDMONTON. — A huge black winter radish, weighing 9½ pounds turned up in the garden of A. J. J. Bals in Southwest Edmonton recently. The radish was six inches in diameter and 18 inches long.

Prairie Fiesta And A Hayride

(By Grace Luckhart in Vancouver Province)

I WONDER if they still burn the straw stacks on the prairie? When threshing is all over and the grain has been sold or stored? And if they do, do they make a sort of fiesta of it as we used to do?

Of course with our modern scientific methods of making this put of that, I may be wearing last year's straw stack on my back for all I know. Or in my nylon!

I may not have been born 40 years too soon, but I used to think that burning an awful waste, but what could you do? True, the range cattle used to eat some of it in the winter when the snow was too deep for feeding. Or they could find shelter in the lee of the big stacks, once they had gouged out spaces big enough to hold them.

These cattle were not to be confused with the stock that were comfortably fed and housed all winter. Much cows and fancy heifers and teachers' pets generally, or some puppy animal that couldn't take it. But the biggest part of the herd stayed out all winter. They lived on the fat of the land all summer in the hay stacks and the rolling hills that were the Moose Mountains.

After the first blizzard had swept the stubble land and the summer fallow, drifting the snow into the coulees, and wiping out the trails, those cattle knew where to find shelter.

They could burrow out caves in the straw stacks and crowd in together, almost out of sight. When they were out in the open fields, they might not be on even scratching terms, but calmly brought them together. They got along.

We lived a couple of miles from the new little town, which was beginning to make its presence felt throughout the countryside. Already fences of barbed wire were being strung along on willow pickets, although we used to cap the pickets with buffalo skulls in case we became too civilized. But when the threshing was over, our place was the natural setting for the straw burning party. Dad always picked out the stacks he wanted for the cattle and we could burn the rest.

I used to issue a general invitation to my teen age pals in town. I might have been Elsa Maxwell, so closely did I follow the general motif for the party. I even collected my guests in a hay stack.

It was better to have the party in the lark of the moon because the burning stacks gave a more "lovely light". We used to pretend we were Indians and paw wow around the blaze, but the stubble hampered our dancing somewhat.

Sometimes we had our party in a harvest moon. Away beyond the blotted fields we could see the faint outlines of the Moose Mountains and the tiny, glimmering pinpoints of the lights in the town. Of course there was always the great canopy of stars. Nature used indeed to make our burning seem puny on such a night, but it was fun anyway.

When the last stack was burned we would go home and have a good feed. Not hot dogs—we had never heard of them. It was more likely to be sandwiches and cake and lots of pie, with fresh outermilk on the side. Sometimes we even had a barrel of apples, if any shipments had come in from Ontario.

When the party was over, we'd drive our guests back to town. The fires would have burned low and the stars come back into their own. Down where the trail dipped down to the coulee, it would be cold with the first hint of frost.

MADE OF CELLS

Like all growing things, wood is made up of cells of different types and sizes, and with different functions. Some cells give strength, others distribute tree foods. 2798

WORLD HAPPENINGS

BRIEFLY TOLD

King Frederick IX of Denmark has been appointed honorary admiral of the British fleet the Admiralty announced.

Playing his barrel organ for charities, Reginald Stedman of Colchester, England, has raised nearly £11,000 (\$44,000) in 13 years.

According to reliable sources, Noranda, the second largest base metal producer in Canada, has optioned a nickel-copper property which straddles the Nipawin-Pin Flon highway.

Canada's exports to the United States—vital to the Dominion's dollar-saving program—rose 36 per cent in the first eight months of 1948, the bureau of statistics announced.

Britain has received no assurance Canada will unfreeze the remaining \$255,000,000 British credit, Chancellor of the Exchequer Sir Stafford Cripps told a press conference in New York.

Canadian defence authorities hailed adoption of the "unified" screw thread, by Canada, Britain and United States as a major step towards general standardization of industrial production.

Eleven men and women from other lands became Canadian citizens at Swift Current court house recently when they were presented with naturalization certificates.

Royal Canadian Electrical and Mechanical Engineers have been formally allied with their British army counterpart, the Royal Electrical and Mechanical Engineers.

An African tribal chief has asked Britain to make Germany give him back his grandfather's skull. The Germans, who had it in a museum, promised to return it under the Versailles Treaty but they reneged, said Chief, Adam Sapi of Tanganyika's Wahehe Tribe.

Christopher Columbus was a weaver, his father's trade, until after he was 21.

Fire Chief Gives Advice To Cut Down Chimney Fires

NEW WESTMINSTER, B.C. — Don't cut the draft on your furnace as soon as the fire burns freely. Let flames go up the chimney and warm the flues.

This advice to furnace stokers is given by Fire Chief C. J. Highsted, who told members of the Rotary Club the total loss by fire for the year in the province was \$8,359,801.

In a warm flue, he said, there is almost no condensation, and no formation of creosote, the deposit that burns to make "chimney fires", there would be almost no chimney fires, the chief said, if householders would handle drafts as he advises.

He blamed careless smokers for 2,196 of the 5,695 fires in B.C., and for property loss of \$2,523,197.

Weekly Tip

BOILING OVER

To prevent rice, spaghetti, macaroni and vegetables from boiling over, just rub a small piece of butter around the edge of the pan.

British Agriculture

IN BRITAIN'S STRUGGLE FOR economic recovery emphasis has been placed on the urgent need for increasing the production of food and manufactured goods, with the object of exporting as much as possible, and decreasing imports. In a report presented a short time ago to the British House of Commons by the Minister of Agriculture, Mr. Williams, some interesting facts were made public regarding recent advances in food production in that country. It was estimated that nearly 500,000 more acres of land were devoted to food production this year than in 1947, and that next year it is hoped that more than 10,250,000 acres will be under cultivation. Of this acreage, it is expected that 2,240,000 will be used for wheat, 1,000,000 for potatoes, 392,000 for sugar beets and 200,000 for linseed.

Standards For Poultry Raised

It is also hoped that during the next year live-stock production will be considerably increased. Poultry production, the report showed, had expanded rapidly, with an increase of 95 per cent., or more than 10,000,000 hens more than in the previous year. Official poultry returns issued this summer, showed that there were at that time over 44,378,000 hens which were expected to increase egg production by 670,000,000 during the present year. The British Ministry of Agriculture has recently introduced new methods of increasing egg production by improving breeds and assisting farmers in various ways to maintain high standards of health among their flocks and to obtain maximum egg production throughout the year.

Help To Bring About Recovery

Milk production has also been increased. It is hoped that 900,000 more calves will be produced next year, and that there will be improvement in the quality of dairy herds. By improving breeds it is estimated that there would be a yearly increase of from 50 to 100 gallons of milk from each cow, and also an increase in the amount of butter fat contained in the milk. All these facts indicate the part which agriculture is playing in Britain's effort to bring about economic recovery. Sir Stafford Cripps, Chancellor of the Exchequer, who visited Canada recently, expressed optimism over the progress which is being made in this effort, and said that the British people have reason to be very hopeful of its success. It is apparent that the British farmers are doing their part in increasing the output of food and other agricultural products to meet the needs of the country during this critical period.

Blackberries Blamed For Polio Contact

VICTORIA—Blackberries growing on a vacant lot, and eaten by the sufferers, may be the contact for two Oak Bay Elementary School pupils suffering from poliomyelitis, municipal council has been informed.

The lot was burned off immediately and the whole area sprayed with DDT.

In Vancouver, Dr. Stewart Murray, city medical health officer, said such a contact was a possibility, but only a remote one.

The disease might be transmitted by flies he said, but is much more likely to be transmitted direct from a polio carrier.

SHARE RIVER HYDRO PLANT SUPPLYING YELLOWKNIFE

EDMONTON—Power now is surging over 90-mile transmission lines of the Share River hydro plant to Yellowknife supplying 8,000 additional horsepower to Giant Yellowknife and the northern mining town.

The unit which has taken about two years to construct, is the first of several generating plants the government plans to install, eventually for a total output of 25,000 h.p.

The power from the new plants will serve the gold mines in Yellowknife and also residents of the town.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Digestion "24" For The Kind Of Relief That Helps Make You Sure To Go

More than half of your digestion is done below the belt—in your 28 feet of bowels.

So when indigestion strikes, try something that helps digestion in the stomach AND below the belt.

What you may need is Carter's Little Liver Pills to give needed help to that "forgotten 28 feet" of bowels.

Take one Carter's Little Liver Pill before and one after meals. Take them according to directions. They help wake up a larger flow of the 3 main digestive juices in your stomach AND bowels—help you digest what you have eaten in Nature's own way.

Then you'll feel the kind of relief that makes you feel better from your head to your toes. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—See

FUNNY And OTHERWISE

Wife: "Women are not very strong physically."

Hubby: "Perhaps not; but they can put the cap on a fruit jar so that it takes a man 20 minutes to take it off."

The village millman bought a horse for the morning round. It was not exactly a thoroughbred, but it had four legs.

One day he took his bargain to the blacksmith to have him shod. The smith regarded the weary-looking animal critically, paying particular attention to his lean body and spindly legs.

"You ought to have a horse there some day," he said at length. "I see you've got the scaffolding up."

"There was a crowd at the town hall last night," said the oldest inhabitant to his wife.

"Something special on?" asked his better half.

"Oh, yes! It was burned down," was the reply.

A visitor at the Capitol was accompanied by his small son. The little boy watched from the gallery when the House came to order.

"Why did the minister pray for all those men, Pop?"

"He didn't. He looked them over and prayed for the country."

Printer's error: "Judge Bentley, one of our most eligible bachelors, is retiring from politics. Hale, hearty and 55, the judge says he wants a little peach and quiet."

We like the story about the Scotsman who was a man of few words. He quarrelled with his wife one morning, left the house and did not return for 12 years. When he came back, he walked in quite calmly as though nothing unusual had happened.

"And where might you have been, Sandy Macpherson?" asked his wife.

"Out?" came the reply.

Wife to husband: "You'd better get up and go see why the baby's not crying."

He was one of those fathers who believed in trying to answer any questions put by his son. So he did his best when the youngster asked:

"What are ancestors, daddy?"

"Well, my boy," he replied, "I'm one of your ancestors, and your grandfather is another."

A puzzled frown marred the childish brow.

"Then, daddy, why do people brag about them?" 2799

Above — A section of the buyers at the Saskatoon A.R. Swine Sale, the first of its kind ever held in Canada.

Left — Champion Yorkshire boar at the recent A.R. Swine Sale, Saskatoon, sold by St. Peter's College at \$230 to the Provincial Jail Farm at Prince Albert, Sask.

Bird Changed Sex, Reaches Ripe Age

VANCOUVER.—Goo-Goo, a bi-sexual mallard that wanted to see how the other half lived, now is rated a cantankerous.

At the ripe old age of 13, the pet of Mr. and Mrs. William Lamontaine is the equivalent of a human well past the century mark.

About 10 years ago Goo-Goo eschewed the mundane female life of egg-laying, at which she was no amateur, and began to change to a quacking, gaily-plumaged drake. Mrs. Lamontaine's suspicions of the channel's presence were confirmed by a game warden.

The bird had achieved a complete change of sex.

Now slightly lame and too heavy to fly, Goo-Goo lives a quiet retired life, but still looks and acts like any well-dressed drake.

VOLUNTEERS BUILDING NEW RINK AT THE PAS

THE PAS, Man.—The new community rink being constructed here is expected to be completed and ready for use this winter. The main arches have been erected and working bees of volunteers are putting on the outside sheeting under flood lights. The various women's organizations of the community are serving hot lunches to the volunteer workers.

Fuel Briquettes Made From Straw And Sawdust

WINNIPEG.—Fuel briquettes can now be made out of straw and sawdust without the use of a "binder".

R. A. Sara, managing secretary of the industrial development board, told a meeting of the Manitoba Electrical association here.

Exhibiting samples of the straw and sawdust briquettes, he said they had the same heat value per pound as lignite coal.

"A machine has been patented," he told the meeting, "that compresses loose straw and sawdust into briquettes with the air of heat, and the portable machine will be capable of processing 5.4 to 22.4 tons of straw every eight hours, depending on the size of briquettes."

Speaking on new edible and inedible uses of farm products, Mr. Sara told of the growing importance of the oil seed processing industry in Canada.

Canada has 13 oil extraction plants, of which three are in Manitoba. Mr. Sara said, and predicted the rapid expansion of these plants to a position where Canada's annual output of 170,000,000 pounds of vegetable oils will be greatly reduced.

Saturday's prize winners at the first wheel drive sponsored by the Elks were Mrs. Mark Sullivan, Mrs. A. Easton, Harry Harris and Hartley Dunlop. Eleven tables were in play.

Mrs. J. H. Boulton is visiting in Calgary the guest of her son and daughter-in-law, Mr. and Mrs. Foss Boulton.

Mr. and Mrs. Jack Nash are Calgary visitors.

Mrs. J. Robinson and daughter, of Calgary, have returned home following a visit here with her parents, Mr. and Mrs. A. Beveridge.

Mrs. Mary Antrobus has returned to Coleman after two months residence in Calgary. She is endeavoring to sell her main street property and is the house guest of Mr. and Mrs. A. Dewar.

WEDDINGS

ONDRIK - CLARY

A wedding of much local interest took place very quietly in the United Church manse when Shirley, eldest daughter of Mrs. Lou Clary and the late Mr. Clary, was united in marriage to Louis Ondrik, of Coleman. Rev. Dr. R. Magowan conducted the ceremony.

Witnesses included Mrs. Clary, mother of the bride, and Mrs. R. Magowan.

The newly weds will reside in Coleman having rented a suite in the Celli Block. The groom is a trucker and has two trucks working in the Pass towns. The bride, stenographer at Coleman Motors, will remain with her present employment.

WRIGHT - DAVIDSON

A quiet but pretty wedding took place on Saturday, October 9, at the Manse, 1058 Nelson Street, Vancouver, when Rev. H. R. Vessey joined in matrimony Jean Davidson, only daughter of Mr. and Mrs. Harry Brown, of Vancouver and formerly of Coleman, to Gordon G. Wright, of Edinburgh, Scotland.

A reception was held at the home of the bride's parents at which a number of Colemanites were present.

The happy young couple will make their home at Sechelt, B.C., where the groom is employed.

In Memoriam

SLUGG—In Loving Memory of Fred Slugg who passed away October 18, 1943.

"A page in the Book of Memory is gently turned today."

—Ever remembered by Mary and Marilyn and Mr. and Mrs. W. H. Garner.

HILL—In Loving Memory of our dear mother, Sarah Emma Hill, who passed away October 16, 1945.

—Ever remembered by The Family.

JACKSON—In Loving Memory of our dear husband and father, John Jackson, who passed away on October 23, 1946.

Deep in our hearts you are fondly remembered
 Sweet happy memories cling round your name;
 True hearts that loved you with deepest affection
 Always will love you in death just the same.

—Ever remembered by his loving wife, Bert and Jean.

JACKSON—In Loving Memory of our dear father, John Jackson, who passed away Oct 23, 1946.

His memory is as dear to-day
 As in the hour he passed away
 Ever remembered by Jack, Elsie and Jacqueline.

CARD OF THANKS

I wish sincerely to thank friends for their kind expressions and for beautiful floral offerings in my recent bereavement in losing my dear husband, Fred Antrobus. I extend grateful thanks to Dr. E. J. Liesemer for his care and attention during my husband's sickness. — Mary Antrobus.

CARD OF THANKS

I wish to thank the doctors, nurses and staff for the kindness shown me while in hospital. I also wish to thank all who sent flowers, gifts and cards and who visited me during my sickness. — Mrs. Ethel Hill.

Hallowe'en is Shell-out Time
 and Everybody Loves the
PURITY

Hallowe'en is coming round again! When your doorbell rings, be ready with this grand Purity Pumpkin pie... made with Purity Flour... of course! Here's a melt-in-your-mouth pastry recipe.

PURITY PASTRY (enough for 2 pie shells)
 Sift together 1 1/2 cups PURITY FLOUR and 1/2 teaspoon salt. Cut 1/2 cup shortening into mixture with two knives, until it looks like very coarse meal. Add 3 table-
 spoons icy water gradually, mixing until dough holds together. Chill dough for 5 or 10 minutes and use out on a lightly floured board. Roll with a light quick motion to 1/8 inch thickness. Press dough lightly into pie plate, so that no air bubbles are trapped, and trim off the edge.

FILLING (1 pie)
 Beat 2 eggs only until whites and yolks are well blended. Gradually beat in 1/2 cup white sugar, and add 1 teaspoon cream. 1/2 teaspoon vanilla essence, and a few grains of salt. Stir in 1 1/2 cups prepared pumpkin and 1/2 cup hot milk. Pour into pie plate lined with pastry and bake in hot oven (450°F.) for first ten minutes, then reduce temperature to moderate (350°F.) and bake for 20-25 minutes, or until filling is firm. Cool and serve with whipped cream or decorate with raisin lace. (Filling recipe may be doubled if you wish 2 pumpkin pies.)

Remember, Purity Flour, specially milled from finest hard wheat—is best for all your baking.

YOU NEED ONLY ONE FLOUR
PURITY FLOUR
 FOR ONE RESULT—PERFECTION
